Γ. ΠΑΡΑΓΩΓΗ ΓΡΑΠΤΟΥ ΛΟΓΟΥ

Dear Malala,

After having heard about the incident you went through I totally sympathize with you. Such behavior is unacceptable and unjustifiable.

Going to school should be an indefeasible right for every child regardless of one's sex. Girls, too are a vital part of our society and must be treated as equal individuals. As you may well know, your actions will be considered as a bright example and will make a difference to other girls.

In developing countries the right to education is taken for granted especially for boys while girls have to fight to earn it. The interference of the government is essential in all countries without exception. It is the government's responsibility to provide equal educational opportunities for all. Society requires the cooperation of both men and women to ensure the balance and development for the years to come.

What more can someone ask for than education? Nothing can be compared to a well-organized educational system that can take advantage of everyone's potentials and skills for the well-being of society. As already proven in the past, education creates future useful individuals

for both society and themselves. In this way society becomes a better place to live in for the current and future generations.

I hope the above has helped you and will make you find the strength to continue what you have already started for the sake of all children.

Best wishes,

Alex Georgiou
